Tenaris Announces 2013 Third Quarter Results

The financial information contained in this press release is based on unaudited consolidated condensed interim financial statements presented in U.S. dollars (\$) and prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standard Board and adopted by the European Union, or IFRS.

Luxembourg, November 6, 2013 - Tenaris S.A. (NYSE, Buenos Aires and Mexico: TS and MTA Italy: TEN) (“Tenaris”) today announced its results for the quarter and nine months ended September 30, 2013 with comparison to its results for the quarter and nine months ended September 30, 2012.

Summary of 2013 Third Quarter Results

(Comparison with second quarter of 2013 and third quarter of 2012)

	Q3 2013	Q2 2013		Q3 2012	
Net sales (\$ million)	2,415	2,829	(15%)	2,657	(9%)
Operating income (\$ million)	464	578	(20%)	584	(21%)
Net income (\$ million)	314	430	(27%)	434	(28%)
Shareholders' net income (\$ million)	300	418	(28%)	433	(31%)
Earnings per ADS (\$)	0.51	0.71	(28%)	0.73	(31%)
Earnings per share (\$)	0.25	0.35	(28%)	0.37	(31%)
EBITDA* (\$ million)	622	730	(15%)	679	(8%)
EBITDA margin (% of net sales)	25.7%	25.8%		25.6%	

*EBITDA is defined as operating income plus depreciation, amortization and impairment charges/(reversals) and in Q3 2012 excludes a non-recurring gain of \$49 million, recorded in *Other operating income* corresponding to a tax related lawsuit collected in Brazil.

Sales and operating income decreased with sequential sales affected principally by the impact of project delays on line pipe shipments in Brazil and a less favorable mix of OCTG products with lower sales in the Middle East and Africa, in addition to the seasonal impact of Northern Hemisphere plant stoppages. Net income was negatively affected by a \$45 million deferred income tax provision, following the enactment of a new 10% withholding tax in Argentina.

Cash flow from operations amounted to \$753 million for the quarter including a strong reduction in working capital. Our net cash position (cash and other current investments less total borrowings) increased to \$785 million.

Interim Dividend Payment

Our board of directors approved the payment of an interim dividend of \$0.13 per share (\$0.26 per ADS), or approximately \$153 million. The payment date will be November 21, 2013, and the ex-dividend date will be November 18, 2013.

Market Background and Outlook

Drilling activity in North America in the year to date has consolidated, supported by improving operator cash flows on higher oil prices and drilling efficiencies. Going into next year, it is expected that operator cash flows will support an increase in drilling activity if oil and gas prices remain close to current levels. In the rest of the world, oil and gas prices close to current levels should continue to support the ongoing expansion in drilling activity in the Middle East and offshore regions and onshore activity in other regions should remain stable.

In this environment, in the fourth quarter and going into 2014, we expect a strong level of sales in the Middle East and Africa and a rising level of sales in North America. In South America, although sales of OCTG products are expected to increase led by higher shale activity in Argentina, sales and shipments of line pipe products will continue to be affected by project delays in Brazil.

EBITDA margins are expected to remain stable while the overall EBITDA level should increase in line with sales.

Analysis of 2013 Third Quarter Results

Tubes Sales volume (thousand metric tons)	Q3 2013	Q2 2013		Q3 2012	
Seamless	614	677	(9%)	642	(4%)
Welded	224	286	(22%)	305	(27%)
Total	838	963	(13%)	947	(12%)

Tubes (Net sales - \$ million)	Q3 2013	Q2 2013	Q3 2012
North America	928	986 (6%)	1,260 (26%)
South America	474	652 (27%)	610 (22%)
Europe	199	218 (9%)	253 (21%)
Middle East & Africa	468	626 (25%)	236 98%
Far East & Oceania	156	137 14%	109 43%
Total net sales (\$ million)	2,225	2,619 (15%)	2,469 (10%)
Operating income (\$ million)	434	553 (22%)	560 (23%)
Operating margin (% of sales)	19.5%	21.1%	22.7%

Net sales of tubular products and services decreased 10% year on year and 15% sequentially. Sequentially, sales were mainly affected by lower shipments of offshore line pipe in Brazil and lower sales to the Middle East and Africa. Sequentially, North American sales declined principally due to lower sales of line pipe reflecting a more competitive situation for less differentiated products. In South America, sales declined due to lack of line pipe shipments in Brazil reflecting project implementation delays and premium OCTG stock adjustments in Argentina pursuant to the implementation of our alliance with YPF where we took over the management of their existing inventories. In the Middle East and Africa sales decreased compared to a record prior quarter due to the timing of shipments.

Operating income from tubular products and services, decreased 22% sequentially and 23% compared to the previous year. Sequentially, the decline in operating income was mainly due to the decline in sales and a lower operating margin due to the negative effect of lower sales on the absorption of fixed costs (i.e., depreciation and amortization).

Others	Q3 2013	Q2 2013	Q3 2012
Net sales (\$ million)	190	210 (10%)	188 1%
Operating income (\$ million)	30	26 18%	24 27%
Operating margin (% of sales)	15.8%	12.2%	12.6%

Net sales of other products and services decreased 10% sequentially and increased 1% year on year. The sequential decline in sales was mainly due to lower sales of industrial equipment in Brazil. Despite the sequential decline in sales, operating income increased 18% mainly due to better performance of our sucker rods and electric conduit businesses.

Selling, general and administrative expenses, or SG&A, amounted to \$439 million, or 18.2% of net sales in the third quarter of 2013, compared to \$529 million, 18.7% in the previous quarter and \$459 million, 17.3% in the third quarter of 2012. The sequential decline in SG&A expenses was mainly due to lower selling expenses associated with lower shipment volumes and a reduction in the allowance for doubtful accounts following the collection of overdue accounts receivable.

Other operating results, amounted to an expense of \$4 million in the third quarter of 2013, compared to an expense of \$7 million in the previous quarter and an income of \$44 million in the third quarter of 2012. The income in the third quarter of 2012, was related to a \$49 million payment from the Brazilian government, in interest and monetary adjustment over a tax benefit received in 1991.

Financial results amounted to a loss of \$17 million in the third quarter of 2013, compared to a loss of \$11 million in the previous quarter and a loss of \$24 million in the third quarter of 2012.

Equity in earnings of associated companies generated a gain of \$10 million in the third quarter of 2013, compared to a gain of \$12 million in the previous quarter and a gain of \$11 million in the third quarter of 2012. These results were mainly derived from our equity investment in Ternium (NYSE:TX).

Income tax charges totalled \$142 million in the third quarter of 2013, equivalent to 31.9% of income before equity in earnings of associated companies and income tax, compared to 26.4% in the previous quarter and 24.4% in the third quarter of 2012. In September 2013, Argentina enacted a law that amends its Income tax law. The law includes a new 10% withholding tax on dividend distributions made by Argentine companies to foreign beneficiaries. Accordingly, as of September 30, 2013, we recorded an income tax provision of \$45 million, for the deferred tax liability on reserves for future dividends at our Argentine subsidiaries.

Results attributable to non-controlling interests amounted to gains of \$14 million in the third quarter of 2013, compared to gains of \$12 million in the previous quarter and gains of \$1 million in the third quarter of 2012. In the third quarter of 2013, these results were mainly attributable to minority interests at our Japanese subsidiary NKKTubes.

Cash Flow and Liquidity of 2013 Third Quarter

Net cash provided by operations during the third quarter of 2013 was \$753 million, compared to \$611 million in the previous quarter and \$491 million in the third quarter of 2012. Working capital decreased by \$239 million during the third quarter of 2013, compared to a decrease of \$56 million in the previous quarter and an increase of \$107 million in the third quarter of 2012. The decrease in working capital in the third quarter of 2013, was mainly due to a decrease in trade receivables following lower sales.

Capital expenditures amounted to \$206 million in the third quarter of 2013, compared to \$180 million in the previous quarter and \$187 million in the third quarter of 2012.

Our net cash (cash and other current investments less total borrowings) increased to \$785 million, at the end of the third quarter of 2013, from \$214 million at the end of the previous quarter.

Operating income from tubular products and services decreased 10% to \$1,512 million in the first nine months of 2013, from \$1,680 million in the first nine months of 2012, reflecting a 2% decrease in sales and a reduction of 200 basis points in the operating margin.

Others	9M 2013	9M 2012	Increase/(Decrease)
Net sales (\$ million)	590	631	(6%)
Operating income (\$ million)	83	91	(9%)
Operating margin (% of sales)	14.1%	14.4%	

Net sales of other products and services decreased 6% to \$590 million in the first nine months of 2013, compared to \$631 million in the first nine months of 2012, mainly due to lower sales of industrial equipment in Brazil, coiled tubing and tubes for electric conduit, partially offset by higher sales of sucker rods.

Operating income from other products and services decreased 9% to \$83 million in the first nine months of 2013, compared to \$91 million during the first nine months of 2012, reflecting lower sales and stable margins.

SG&A amounted to \$1,444 million, or 18.2% of net sales during the first nine months of 2013, compared to \$1,390 million, or 17.2% in the same period of 2012. The increase in SG&A expenses was mainly due to higher selling expenses associated with higher shipments to the Middle East and Africa and an increase in provisions for contingencies and doubtful accounts.

Financial results were a loss of \$37 million in the first nine months of 2013 compared to loss of \$35 million in the same period of 2012.

Equity in earnings of associated companies generated a gain of \$34 million in the first nine months of 2013, compared to a gain of \$31 million in the first nine months of 2012. These gains were derived mainly from our equity investment in Ternium.

Income tax charges totalled \$426 million in the first nine months of 2013, equivalent to 27.3% of income before equity in earnings of associated companies and income tax, compared to \$429 million in the first nine months of 2012, equivalent to 24.7% of income before equity in earnings of associated companies and income tax. In September 2013, Argentina enacted a law that amends its Income tax law. The law includes a new 10% withholding tax on dividend distributions made by Argentine companies to foreign beneficiaries. Accordingly, as of September 30, 2013, we recorded an income tax provision of \$45 million, for the deferred tax liability on reserves for future dividends at our Argentine subsidiaries.

Income attributable to non-controlling interests amounted to \$24 million in the first nine months of 2013, compared to \$10 million in the first nine months of 2012, mainly due to improved results at our Japanese subsidiary NKKTubes.

Cash Flow and Liquidity of 2013 First Nine Months

During the first nine months of 2013, net cash provided by operations was \$1,928 million, compared to \$1,514 million in the same period of 2012. Working capital decreased by \$312 million in the first nine months of 2013, compared with an increase of \$56 million in the first nine months of 2012.

Capital expenditures amounted to \$570 million in the first nine months of 2013, compared with \$588 million in the same period of 2012.

Our financial position changed from net debt of \$271 million at the beginning of the year to net cash of \$785 million at September 30, 2013.
